

Anti floating sinking head

Characteristics

1. The countersunk head is made of 316 stainless steel, with high hygiene grade and wide application.
2. High weight design, stability, and improved user experience.
3. Same diameter as the tube, and will not affect the flow rate.
4. Increased outer diameter to connect more reliably with the tube.
5. Low opening design with less liquid residue.
6. The car milling composite center has exquisite appearance, precise size, and good consistency.

Specification

Model	Inside diameter	Material	Recommend using tubing
14#	1.6mm	316 SS	14#
19#	2.4mm	316 SS	19#
16#	3.2mm	316 SS	16#
15/25#	4.8mm	316 SS	15、25#
17/24#	6.4mm	316 SS	17、24#
18/35#	7.9mm	316 SS	18、35#
36/73#	9.6mm	316 SS	36、73、86#
82/88#	12.7mm	316 SS	82#、88#
89#	15.9mm	316 SS	89#
